NEAR RICHMOND, March 22, 1880.

Editors Dispatch: I have lately discovered that my wheat was being seriously inared, as I think and fear, by some kind of sect. Upon close examination I find the ades are attacked by a number of very mail green lice that appear to turn to flies after they attain a certain age. They do not eat up the blade, but live upon its luices, and it soon turns yellow, when they move to another, and so on until the plant has no blades; after which they attack the young shoots, which seems to destroy it.

I notice that the forward wheat, which is jointing, does not, up to this time, seem to offer other than the ground blades are turning yellow and dropping off. I observe on the ground some yellow bugs with black spots on them, and judge these lay the eggs. Several acres appear to be gone beyond resurretion. I wish some farmer to tell me what this is, and what to do. I hear com-plaints of the Hessian fly, but do not know I these insects are the same. FARMER.

A New Era.

It is said that the Ricemond and Southwestern Railway Company recently held a to put their corps of engineers to work at an early day slong the line. We showed ast week that the Kentuky Senate has unanimously voted to them franchises similar to those embraced in their Virginia charter, and that this company, so far from being of the "wild-cat" order, was com-posed of heavy eastern capitalists and busiss men of known integrity and standing.

Mr. Hoar, from the same committee, pre sented a minority report, signed by himself, and Stepen B. Slocum for Lieutenant-Gov-Mr. Cameron of Wisconsin, and Mr. Logan. ernor. Mr. Hoar read his report, whereupon Mr. Hill proceeded to read the majority report, which was very long. It charges Kellogg with fraud and corrupt conduct, and includes long extracts from evidence taken before the committee.

Mr. Thurman, from the Committee on the

of that State. Indefinitely postponed.

The minority report in the Kollogg case says nothing has changed since Kellogg was declared entitled to the seat in 1877, except the party majority in the Senate. To eject him by mere party supremacy would be a political crime, to be classed with the rebellion, the attempt to steal the government of Maine, and the overthrow of the southern weeks' lockout to manufacturers, men, and State governments. It characterizes the evidence against Kellogg as utterly untrustworthy.

The majority report finds that Kellogg used his power and influence as Governor elected Democratic members of the Legislature, thus securing a majority, who elected him senator; that the former investigation of the case was conducted unfairly towards his opponent, no evidence at all being taken. It also charges bribery and cor-ruption by Kellogg of witne-ses in the preent investigation. Large extracts from the evidence taken are included in the report. Mr. Hill moved that the resolutions, re-

ports, and evidence be printed. This being a debatable motion Mr. Hoar advocated it, saying when printed the evidence would be seen to utterly refute the majority report.

Hill remarked that the other side seemed anxious to precipitate the debate before the evidence was before the Senate.

After further debate Mr. Kellogg took the had, before the investigation, declared pubpursued him (Keilogg) with the avidity and hate of a slenth-hound, and had been animated by personal maliguity. He charged that Mr. Hill had cut out several pages of the testimony favorable to him, and closed with the assertion that he was willing to compare his moral or personal character and courage with that of Mr. Hill.

The metion to print was then adopted. Mr. Coke, from the Committee on Indian Affairs, reported the bill ratifying the recent agreement with the Ute Indians. Placed on the calendar.

The House bill appropriating \$100,000 to continue the public printing was passed. The Geneva-award bill was then formally taken up, and the Senate adjourned. HOUSE OF REPRESENTATIVES.
